

Prof. dr Katarina Borojević

BIBLIOGRAFIJA RADOVA

(LIST OF PUBLICATIONS)

1950 – 1993

1. Popović, Katarina: *Ispitivanje kvaliteta maksimirskih pšenica*. Zagreb, Poljoprivredni fakultet, Majski festival, 1950, 13 str.

Testing quality of Maksimir's wheat

2. Borojević, Katarina: *Holandija osvaja plodno tlo od mora*. Agronomski glasnik, 1950, 2, str. 124–126.

Netherlands is taking fertile soil from the sea

3. Borojević, Katarina: *Uputstva za zaštitu bilja*. Zagreb, Poljoopskrba, 1952–1954.

Plant protection prospects

4. Borojević, Katarina: *Žitarice* (str. 1548–1550), *Pšenica* (str. 1026), *Sjemenska pšenica* (str. 1148–1150) i *Kukuruz* (str. 644–650). Zagreb, Zadrugi leksikon FNRJ, 1956.

Small crops (p. 1548–1550), *Wheat* (p. 1026), *Seed production of wheat* (p. 1148–1150) and *Corn* (p. 644–650)

5. Borojević, Katarina: *Promene na poljoprivrednom bilju izazvane radijacijom*. Poljoprivreda Vojvodine, 1958, N° 1, str. 62–67.

Changes induced by irradiation in agricultural plants

6. Borojević, Katarina: *Otpornost prema bolestima kod žitarica izazvana radijacijom*. Poljoprivreda Vojvodine, 1958, N° 2, str. 147–151.

Induction of mutation for disease resistance in small crops

7. Borojević, Slavko; Borojević, Katarina: *Information on the crossability of tetraploid rye with T. vulgare and Triticale*. Wheat Information Service, 1958, N° 9–10, p. 22.

8. Borojević, S.; Borojević, K.; Mikić, D.: *Stvaranje novih visokorodnih sorti pšenice*. Beograd, Jugoslovenski savetodavni centar, 1960, str. 26–29. (knjiga)

Breeding of high yielding wheat varieties

9. Borojević, Katarina; Glumač, S.: *Oštećenje pšenice izazvano nematodama na oglednom polju Rimski Šančevi*. Savremena poljoprivreda, 1961, N° 3, str. 233–239.

Damage of wheat caused by nematodes at experimental field Rimski Šančevi

10. Borojević, Slavko; Borojević, Katarina: *Uticaj ruba na genetski potencijal za prinos kod pšenice*. Savremena poljoprivreda, 1961, N° 5, str. 391–401.

Genetic capacity for yield in wheat in relation to the border effect. Summary, p. 391–401.

11. Borojević, Katarina: *Prilog proučavanju proizvodnje pšenice kod individualnih proizvođača u istočnom delu Slavonije*. Savremena poljoprivreda, 1961, N° 10, str. 1050–1062.

A study of private farmers wheat production in Eastern part of Slavonia

12. Borojević, Katarina: *Analiza faktora proizvodnje pšenice u nekim selima Slavonije*. Vinkovci, Kotarska poljoprivredno šumarska komora, 1961, 101 str. (knjiga)

Analysis of wheat production in some villages in Slavonia

13. Borojević, Katarina: *Nasledne promene u tipu klasa izazvane zračenjem semena kod pšenice sorte Mara*. II kongres biologa Jugoslavije, Beograd, 1962, str. 114–115.

Genetic changes in type of spike induced by irradiation of seeds of wheat variety Mara

14. Borojević, Katarina: *Stabljikina nematoda (Ditylenchus dipsaci Kühn) opasan štetnik pšenice*. Biljna zaštita, 1962, N° 6, str. 129–130.

Ditylenchus dipsaci Kühn a harmful insect to wheat

15. Borojević, Katarina: *Genetske promene izazvane radioaktivnim zračenjem kod Triticum speciesa*. Doktorska teza odbranjena 13. jula 1962. god. na Poljoprivrednom fakultetu Sveučilišta u Zagrebu.

Genetic changes induced by radioactive irradiation in the Triticum species. Doctor thesis defended on 13 July 1962 at the Faculty of Agriculture, University of Zagreb.

16. Borojević, Katarina: *Irradiation induced ^{chemical} plants in wheat*. Polish-Yugoslavian Symposium for application of isotopes in agriculture, Warszawa, 1962, p. 1-16. (abstract)

17. Borojević, Katarina: *Delovanje X-zraka i termalnih neutrona na neke sorte Triticum speciesa*. Savremena poljoprivreda, 1963, N° 3, str. 181-202.

The effect of X-rays and thermal neutrons on some varieties of the Triticum species. Summary, p. 201-202.

18. Šenborn, Branka; Borojević, Katarina: *Proučavanje mogućnosti poboljšanja kvaliteta brašna zračenjem zrna pšenice kao i promena u biološkim svojstvima u R₁ generaciji*. Savremena poljoprivreda, 1963, N° 5, str. 349-366.

The possibility of improving flour quality by irradiating wheat grain and of inducing changes in biological properties in the R₁ generation. Summary, p. 365-366.

19. Borojević, Katarina: *Hijerarhijska analiza varijanse u genetskim istraživanjima*. Savremena poljoprivreda, 1963, N° 7-8, str. 552-560.

Chierarchical analysis of variance in genetic studies

20. Borojević, Slavko; Borojević, Katarina: *Novosadske visokoprinodne sorte pšenice*. Novi Sad, Zbornik radova Instituta za poljoprivredna istraživanja, 1963, str. 63-73.

High-yielding wheat varieties of Novi Sad. Summary, p. 73-76.

21. Borojević, Katarina: *The genetic advance in the height of plants induced by irradiation in wheat*. The XI Inter. Congr. Genet., Hague, 1963, 5. 114, p. 69. (abstract)

22. Borojević, Katarina: *Rad na induciranju mutacija kod pšenice*. Novi Sad, Zbornik radova Instituta za poljoprivredna istraživanja, 1963, str. 77-91.

Research in induced mutations in wheat. Summary, p. 90.

23. Borojević, Katarina: *O genetskim istraživanjima u Poljskoj*. Savremena poljoprivreda, 1963, N° 1, str. 52-54.

Review of genetic studies in Poland

24. Borojević, Katarina: *Genetske promene izazvane radioaktivnim zračenjem kod Triticum speciesa*. Zbornik Matice srpske za prirodne nauke, 1964, N° 26, str. 41-83.

Genetic changes by radioactive irradiation in Triticum species. Summary, p. 82-83.

25. Borojević, Katarina: *Ćitogenetske promene izazvane radioaktivnim zračenjem kod pšenice*. Savremena poljoprivreda, 1965, N° 1, str. 15-22.

Cytogenetical changes induced by irradiation in wheat. Summary, p. 22.

26. Borojević, Katarina: *The effect of irradiation and selection after irradiation on the number of kernels per spike in wheat. The Use of Induced Mutations in Plant Breeding*, Oxford, Pergamon Press, 1965, p. 505–513.

27. Borojević, Katarina: *Osvrt na američki simpozijum o oplemenjivanju bilja. Savremena poljoprivreda*, 1965, N° 6, str. 577–582.

A review of Symposium on plant breeding held in the USA in 1965.

28. Borojević, Katarina: *Studies on radiation-induced mutations in quantitative characters of wheat (Triticum vulgare). The Co-ordinated Programme of Research on the Production and Use of Induced Mutations in Plant Breeding*, Vienna, 1966, PL-172. (abstract)

29. Borojević, Katarina: *Changes in quantitative characters induced by irradiation in Tr. aestivum ssp. vulgare from M₁ to M₇ generation. Savremena poljoprivreda*, 1966, N° 11–12, p. 235–253.

30. Borojević, Katarina: *Simpozijum o induciranim mutacijama i njihovoj upotrebi. Nuklearna energija*, 1966, N° 4, str. 31.

Symposium on induced mutations and their use

31. Borojević, Katarina: *Studies on radiation-induced mutations in quantitative characters of wheat (Triticum vulgare). Mutations in plant breeding*, IAEA, Vienna, 1966, p. 15–38.

32. Borojević, Katarina: *Changes in quantitative characters induced by irradiation in Tr. aestivum ssp. vulgare. Fifth Yugoslav Symposium on Research In Wheat*, Novi Sad, 1966, p. 13. (abstract)

33. Borojević, Katarina: *Bearded mutation in wheat induced, by irradiation. Mutations and their utilization. Erwin Bauer Memorial Lectures IV*, Berlin, 1966. (abstract)

34. Borojević, Katarina: *Study of quantitative characters of bearded mutation in wheat induced by irradiation. Induzierte mutationen und ihre nutzung, Erwin Bauer-Gedächtnisvorlesungen IV, Akademie-Verlag, Berlin, 1967, p. 199–204.*

35. Borojević, Katarina: *The effect of selection in the irradiated wheat population. III Yugoslav-Polish Symposium on the application of radioisotopes and ionizing radiations in agriculture, forestry & veterinary, Beograd-Zemun, 1967, p. 38–39.*

36. Borojević, Katarina; Borojević, S.: *Response of different genotypes of Triticum aestivum ssp. vulgare to mutagenic treatments*. Mutations in plant breeding II, IAEA, Vienna, 1968, p. 15–46.

37. Borojević, Katarina; Borojević, S.: *Genetika*. Novi Sad, Poljoprivredni fakultet, 1968, 303 str. (skripta)

Genetics (manual)

38. Borojević, Katarina: *Kvantitativna genetika*. Novi Sad, Poljoprivredni fakultet, 1968, 141 str. (skripta)

Quantitative genetics (manual)

39. Borojević, Katarina: *Genetic changes in quantitative characters of irradiated populations*. XII International Congress of Genetics, Tokyo, 1968, abstract N° 2.

40. Borojević, Katarina: *Genetic changes in quantitative characters of irradiated population*. Japan J. Genetics, 44, Suppl. 1, Tokyo, 1969, p. 404–416.

41. Borojević, Katarina; Borojević, S.: *Stabilization of induced genetic variability in irradiated populations of vulgare wheat*. Induced mutations in plants, IAEA, Vienna, 1969, p. 399–432.

42. Borojević, Katarina: *Pojava nove genetske varijabilnosti u kasnijim generacijama zračne populacije*. Savremena poljoprivreda, 1969, N° 11–12, str. 63–69.

The occurrence of new genetic variability in later generations of an irradiated population. Summary, p. 69–70.

43. Borojević, Katarina; Borojević, S.: *Genetski efekat mutagenih tretmana meren metodom hibridizacije*. III Kongres biologa Jugoslavije, Ljubljana, 1969, str. 76–77.

Genetic effect of mutagenic treatments measured by hybridization

44. Borojević, Katarina: *The occurrence of new genetic variability in later generations of an irradiated population*. Reprinted from Contemporary Agriculture (Novi Sad), Beograd, 1970, p. 59–66.

45. Borojević, Katarina: *XII Internationalni genetski kongres*. Genetika, 1969, N° 2, Vol. 3, str. 95–104.

A review of XII International Congress of Genetics

46. Borojević, K.; Borojević, S.: *Stabilization of induced genetic variability in irradiated population*. Symposium on The Nature, Induction And Utilization of Mutations in Plants, Washington, 1969, abstract N° SM-121/24.
47. Borojević, Katarina: *Mutations in the second and subsequent generations*. Manual of mutant breeding, FAO/IAEA, Vienna, 1970, p. 125-126.
48. Borojević, Slavko; Borojević, Katarina: *Genetika*. Novi Sad, Kulturni centar, 1971, 456 str. (knjiga)
Genetics (University textbook)
49. Borojević, Katarina; Lukičić, Lj.: *Open polination in EMS and EI - treated populations of vulgare wheat*. VIII Simposio Internazionale di Agrochimica su „L'energia nucleare in agricoltura”, Venezia, 1971, p. 425-433.
50. Borojević, Katarina; Lukičić, Lj.: *Appearance and maintenance of sterility in wheat population after mutagenic treatment*. IV Polish-Yugoslav Symposium, Krakow, 1971, abstract, p. 19.
51. Borojević, Katarina: *Genetska struktura populacije Triticum aestivum ssp. vulgare nakon mutagenih tretmana*. Genetika, 1971, Vol. 3, N° 2, str. 189-203.
Genetic structure of populations of Triticum aestivum ssp. vulgare after mutagenic treatments. Summary, p. 203.
52. Borojević, K.: *Induced mutations for resistance to leaf rust (Puccinia recondita tritici) in Triticum aestivum vulgare*. Coordination Meeting on Induced Mutations for Disease Resistance in Crop Plants, FAO/IAEA, Nairobi, 1971, invited paper, P.R.1031, p. 1-8.
53. Borojević, Katarina: *Variability in protein content in some mutant lines of Triticum vulgare*. VII Meeting ESNA, Zemun, 1972, abstract 1.
54. Borojević, Katarina; Borojević, S.: *Mutation breeding in wheat*. Induced mutations and plant improvement, IAEA, Vienna, 1972, p. 237-251.
55. Borojević, Katarina; Lukičić, Ljiljana: *Mogućnost selekcije sterilnih biljaka iz populacije pšenice (Triticum aestivum vulgare) tretirane sa EMS*. Savremena poljoprivreda, 1973, N° 9-10, str. 27-33.
Possibility of selection of sterile plants in population of wheat (Triticum aestivum vulgare) after treatment by EMS. Summary, p. 33.

56. Borojević, Katarina: *Estructura génetica de poblaciones de Triticum aestivum ssp. vulgare despues de tratamientos mutagénicos*. Rev. Cubana Cienc. Agric., Havana, 1973, N° 7, p. 341-363.

57. Borojević, Katarina: *The effect of mutagenic treatments on the adaptation of selffertilising plants (Triticum aestivum ssp. vulgare)*. Proceedings of XIII Inter. Congress of Genetics, Berkeley, 1973, Genetics, N° 2, Part 2, p. 28.

58. Borojević, Katarina: *Screening induced mutations for resistance to leaf rust in wheat*. Induced mutations for disease resistance in crop plants, IAEA, Vienna, 1974, p. 133-146.

59. Borojević, Katarina: *Genetika sa oplemenjivanjem bilja*. Novi Sad, Poljoprivredni fakultet, 1974, 35 str. (skripta)

Genetics and plant breeding (manual)

60. Borojević, Katarina: *Evaluating resistance to Puccinia recondita tritici in mutant lines selected in wheat after mutagenic treatments*. Radiation Botany, 1975, Vol. 15, p. 367-374.

61. Borojević, Katarina: *Agronomske vrednosti osatih mutacija pšenice dobivenih nakon delovanja redioaktivnog zračenja*. Savremena poljoprivreda, 1975, N° 7-8, str. 21-29.

Agronomic value of bearded wheat mutants induced by irradiation. Summary, p. 29.

62. Borojević, Katarina; Pribaković, M.; Bošković, M.: *Induced mutants for leaf rust resistance in wheat*. International Winter Wheat Conference, Zagreb, 1975, p. 1-7.
